Digital Marketing Specialist

Performance-focused Digital Marketing Specialist with proven success delivering multi-brand campaigns and audience growth at Sanofi CHC UK. Specialising in paid media, content optimisation, and market analysis using Nielsen Ad Intel, Google Analytics 4. Experienced in managing budgets, boosting engagement, and turning data into strategy. Strong collaborator with a creative edge in 3D and digital content.

Education:

Henley Business School, University of Reading — MSc Digital Marketing (2:1), 2025

- Focus on digital strategy, consumer insight, and campaign optimisation; applied measurement frameworks to evaluate engagement and ROI.
- Completed team projects simulating real briefs, presenting strategy and performance recommendations to stakeholders.

University of Reading — BSc Consumer Behaviour & Marketing with Placement Year (2:1), 2024

- Trained in consumer psychology, market research, and marketing analytics; produced reports translating insights into marketing actions.
- One-year industrial placement informed academic work with real campaign planning and budget considerations.

Experience:

Digital Media Specialist (UK)
Sanofi CHC UK — Reading, Berkshire
09/2022 – 09/2023

- Omnichannel Campaign Management: Executed end-to-end performance marketing for four Tier-1 OTC brands (Allevia, Buscopan, Dulcolax, Cialis), optimizing full-funnel messaging across Paid Social, Programmatic Display, and SEM.
- Performance Metrics: Delivered 3.1M impressions and 78k qualified clicks, achieving a 11% YoY uplift in cross-channel engagement through rigorous A/B testing of creative assets and audience segmentation.
- Market Intelligence & Share of Voice (SoV): Leveraged Nielsen Ad Intel to monitor 14 competitors and ~50 quarterly campaigns, identifying white-space opportunities that led to a 16% reallocation of media spend toward high-performing segments.
- Budget Stewardship: Managed an annual marketing Opex of up to £2.4M, overseeing the lifecycle of 13+ Purchase Orders with a 98% accuracy rate against planned spend.
- Social Commerce & Organic Growth: Scaled the brand’s TikTok and Instagram presence from 0 to 4,200 followers in <12 months. Achieved a 6% organic engagement rate—exceeding the industry benchmark by 18%—by implementing a "social-first" video content strategy.
- Digital Transformation & Enablement: Spearheaded the UK/Spain rollout of a Digital Asset Management (DAM) system, migrating 270+ assets and training 32 stakeholders. Reduced internal "time-to-market" for creative assets by an estimated 27% through metadata optimization.

Personal Projects

Conversion-Centric Asset Design & UI (Figma)

- Objective: Developed a comprehensive library of static creative assets and high-fidelity marketing banners tailored for outsourced client needs and multi-channel digital campaigns.
- Impact: Optimized visual hierarchy and CTA placement to drive higher Click-Through Rates (CTR) and ensure brand consistency across diverse digital touchpoints.

AI-Augmented Full-Stack Development (React, Cursor AI & Telegram bot + Instagram Automation bot)

- Objective: Engineered a personal portfolio website and integrated automation tools, including a Telegram bot and an Instagram "Comment-to-DM" lead generation bot.
- Impact: Leveraged AI-pair programming to reduce development lead times, creating a seamless automated funnel that increases user engagement and streamlines lead capture.

Custom Cloud Infrastructure & UI (Raspberry Pi 5 & React)

- Objective: Architected a private, end-to-end cloud storage solution using a Raspberry Pi 5 to eliminate third-party subscription overhead and enhance data sovereignty.
- Impact: Designed and deployed a custom React-based UI to manage personal files with ease, demonstrating a deep understanding of hardware-software integration and UX/UI principles.
